# Clover Recognized by The Strawhecker Group as Restaurant Smart Terminal Provider of the Year

## December 20, 2021

The Strawhecker Group (TSG) recognizes Clover for second straight year for continued innovation delivered to independently owned restaurants

**BROOKFIELD, Wis., December 20, 2021** – <u>Clover®</u> from <u>Fisery. Inc.</u> (NASDAQ: FISV), a leading provider of payments and financial services technology solutions, has been named the 2021 Restaurant Smart Terminal Provider of the Year by <u>The Strawhecker Group</u> (TSG), the largest analytics and consulting firm focused on the payments acceptance industry.

The award is part of TSG's Payments Excellence Awards, which recognize organizations that embody the vision, dedication, and demonstration of excellence in the payments world. TSG is honoring Clover with this award, for the second year in a row, for successfully navigating industry changes to make a difference for restaurant owners and improve quality and productivity of restaurant technology.

"Clover provides restaurant owners with a point-of-sale and business management platform designed to help their business operate with maximum efficiency, engage with their customers, and grow," said Jeff Dickerson, Head of Clover at Fiserv. "Being recognized by The Strawhecker Group for a second straight year is a testament to our restaurant-focused innovation, to the capabilities our recent acquisition of BentoBox is bringing to restaurants, and to the hard work of our Clover team that has demonstrated an unwavering commitment to understanding and addressing the challenges small businesses face in order to enable their ongoing success."

"Today, restaurateurs are seeking flexible payment services that integrate with the key software tools they need to operate their business now, and in the future," said Jared Drieling, Senior Director of Market Intelligence and Insights at TSG. "The versatility of the Clover platform was unmatched by other competitors that TSG judged."

In 2021, Clover brought to market capabilities that are helping restaurant owners engage customers digitally, streamline operations, and lower their overall cost of doing business. These include:

- Affordable and Flexible Delivery Addressing the growing needs of restaurants for cost-effective delivery options, the Clover platform added Clover Online Ordering with Delivery, which provides restaurants flexible access to food delivery services with direct menu management, order and payment processing and reporting through Clover
- Expanded Digital Storefront Capabilities As a result of the acquisition of BentoBox, a digital front door for restaurants, Clover restaurants can access a robust platform that includes website design, online ordering and marketing tools, all built with the goal of driving growth and engagement for restaurants and their diners
- An All-in-one Solution for Restaurants With Clover Station Solo, full-service restaurants have access to an all-in-one solution designed specifically for restaurants that need a large display to efficiently manage their front-of-house operations and track sales and manage employee shifts, all from a single device.

Clover is a complete business management platform enabling businesses to maximize their operating efficiencies and grow, while allowing customers to pay using a debit or credit card or via mobile payment options such as Apple Pay®, Samsung Pay®, and Google Pay®. As a point-of-sale platform for merchants, Clover processes \$180 billion in annualized payment volume.
