Agiliti from Fiserv Named to The Innovators 2015 by Global Finance Based on Its Potential to Transform Transaction Services

Brookfield, Wis., June 11, 2015 - [Fiserv, Inc.](http://www.fiserv.com) (NASDAQ: FISV), a leading global provider of financial services technology solutions, today announced that [Agiliti™](http://www.agiliti-fiserv.com/), the company's software as a service (SaaS) retail bank technology solution, was recently named to The Innovators 2015 - Transaction Services by *Global Finance* magazine. This annual listing recognizes banks and fintech providers using cutting-edge technology to disrupt the transactions services market. The selections were made by the editorial board of *Global Finance* based on their evaluation of nominations and submissions, including key research and the input of experts.

"Agiliti is enabling growth and competition within the banking market by providing new players with the backbone technology platform they need to build out their services and solutions rapidly," said Joseph D. Giarraputo, publisher of *Global Finance*.

Agiliti was created to enable new players to enter the UK banking and financial services market quickly and cost-effectively, and to help existing financial institutions to rapidly expand their product offerings, digital experience and service models. It can significantly reduce time to market as well as the sometimes high costs associated with the deployment of conventional technology models. A new banking service that could have previously taken two to three years to build can now be implemented in a much shorter timeframe with Agiliti.

"We're on the cusp of a transformative era in UK banking, with Agiliti being an enabling force," said Travers Clarke-Walker, Chief Marketing Officer, International Group, Fiserv. "This is the next phase of the banking revolution, which should bring greater competition and choice for consumers. We expect a significant number of new banks to open in the UK within the next three years, and Fiserv is ready to help them get up and running quickly, with an economic model that makes good business sense."

The Innovators 2015 list has been published in the *Global Finance* June 2015 issue, and the listed companies will be honored at an awards ceremony during [SIBOS](http://www.sibos.com) in October 2015.
