## **Fiserv CBS Worldwide Has Record Sales and Renewals for Core Processing and Front-end Systems in 2005; Parent Company Fiserv Inc. Ranks 488 in Fortune 500 Thanks to 2005 Performance**

BROOKFIELD, Wis., May 09, 2006 (BUSINESS WIRE) -- With 56 new contracts, Fiserv CBS Worldwide recorded a significant increase in global sales volume that included 20 new core contracts in five countries in 2005, including a new deal with a large credit union in Mexico and multiple wins in the Caribbean. In addition, 36 clients have expanded their relationships with Fiserv and signed up for multiyear maintenance renewals or upgrades.

Fiserv Inc., the corporate parent of Fiserv CBS Worldwide, also ranked 488 in the Fortune 500, thanks to strong 2005 performance. The parent company reported record total revenues for 2005 of more than \$4 billion.

"This has been a year of great successes for Fiserv CBS Worldwide and puts us on track for a stellar 2006," said Tony Catalano, president of Fiserv CBS Worldwide. "These wins and renewals are proof that our solutions enable clients to achieve greater internal efficiencies and faster growth than their competitors."

Notable accomplishments for 2005 include the following:

Bank of Ceylon, a leading bank in Sri Lanka, completed the migration of 140 branches to Fiserv's International Comprehensive Banking System (ICBS) in 2005. This complex implementation accounted for more than one-third of the bank's branches and the consolidation of five disparate legacy systems. The remaining branches will be converted in 2006.

CL Permanent Building Society, a de novo financial institution based in Trinidad, installed and went live with Fiserv's banking solutions, ICBS, CBS Teller and CBS Customer Relationship Servicing in less than four months.

Caja Popular Mexicana, the largest credit union in Mexico and Latin America with 333 branches, more than 1 million members and \$1 billion in assets, went live with Fiserv's ICBS core software solution. The implementation included the consolidation of 26 regional data centers and the replacement of two legacy systems.

Commonwealth Bank of the Bahamas, known as the first bank to issue Bahamian credit cards, implemented CBS Collections and Fiserv's debit solutions on top of its ICBS core system.

CoopDesarrollo, the sixth-largest credit union in Mexico, selected ICBS to support its commitment to become one of the first credit unions in Mexico to be registered as regulatory compliant with the Mexican government.

Sogebank, the largest bank in Haiti with more than \$417 million in assets, collaborated with Capital Bank and BNC, to go live with an upgrade and two new installations of Fiserv core software in July.

Millennium bcp, the largest Portuguese private bank, extended its use of Fiserv's ICBS core and front-end systems for processing and customer servicing by renewing its long-standing partnership with Fiserv for an additional three years.

Ministry of Housing in Trinidad & Tobago selected Fiserv to consolidate several government housing agencies onto one software platform and enable the government's ambitious goal to expand their lending services over the next 10 years.

A leading bank in the Philippines also selected Fiserv to ensure that it met its newly announced expansion and aggressive growth targets with specific focus on developing its loans and deposits portfolio. Fiserv technology is already assisting the bank in achieving these goals.

Additionally, six of the new core deals signed in the U.S. are financial institutions with \$1 billion or more in assets, including 1st Source Bank (\$4.5 billion in assets), Central Bank (\$1.7 billion in assets) and Advantage Bank (\$1.3 billion in assets).

Other existing customers upgrading core systems and/or extending their licenses for ICBS and Fiserv's front-end customer

sales, servicing and teller platforms included Maduro & Curiel's Bank, which upgraded to the latest version of the ICBS core and implemented CBS Teller, and Banco del Progreso (Dominican Republic). Additional renewals and upgrades included Banco Granahorrar (Colombia), National Housing Trust (Jamaica), Hakrin Bank (Suriname), Bank of Jamaica (Jamaica), Dexia Public Finance Bank (UK), Banque Nationale de Credit (Haiti) and connectfinancial (Tasmania).

Fiserv CBS Worldwide is a unit of Fiserv, Inc. that delivers end-to-end business and technology solutions for retail financial and consumer finance institutions throughout Europe, Asia-Pacific, Latin America, the Caribbean, Canada and the United States. Through its offices in the United States, the United Kingdom, Poland, Singapore, Australia, China, Indonesia, Colombia and Costa Rica, Fiserv CBS Worldwide enables more than 200 financial institutions to deliver integrated solutions for managing the entire customer life cycle from core banking to multichannel customer contact and data warehousing.
