Fiserv to Exhibit Thought Leadership in Lending at MBA National Mortgage Servicing Conference

- | **Joe Dombrowski, Chief Mortgage Strategist at Fiserv, to participate in panel on best practices in vendor management**
- | **Fiserv will exhibit its LoanServ and LoanComplete solutions in booth #519**

Brookfield, Wis., February 20, 2012 - [Fiserv](#), Inc. (NASDAQ: FISV), a leading global provider of financial services technology solutions, announced today that [Joe Dombrowski](#), Chief Mortgage Strategist at Fiserv, will be a panelist at the [Mortgage Bankers Association's \(MBA\) National Mortgage Servicing Conference](#). In addition to Dombrowski's engagement, Fiserv is a Diamond Sponsor of the event and will exhibit its premier solutions for loan servicers, including LoanServ™ and the newly launched, LoanComplete, in booth #519. The conference kicks off on Tuesday, February 21 and runs through Friday, February 24 in Orlando, Fla.

Dombrowski's session, "The New Normal: The Brave New World of Vendor Management", will take place on Thursday, from 1:45-2:45 p.m. in the Crystal Ballroom in the Main Convention Center. In this session, Dombrowski and the other panelists will discuss best practices in vendor management to help facilitate compliance, streamlined interactions and support for successful strategies, processes and procedures.

"In the new world of servicing, with increased regulations and more attention on working with borrowers, vendor management and compliance assurance are more vital than ever," said Dombrowski. "Transparency has become the new watchword for so much of loan servicing, and that extends to your business partners as well. It is vital that servicers understand what measures providers take to keep their data secure, to ensure business continuity and to support their business objectives. Fiserv is honored to be represented on this panel to discuss these needs."

In the Fiserv booth, conference attendees will have the opportunity to see product demos of both LoanServ and LoanComplete. LoanServ is the company's enterprise servicing system that consolidates all of a borrower's consumer loan relationships on a single platform. It automates all loan servicing processes, including integrated default management and collections, cashing, escrow and investor accounting for both closed-end and revolving loans.

LoanComplete is a new solution suite from Fiserv that efficiently manages life-of-loan processes, captures and retains content, compares and routes data, and tracks documents. Configurable tools allow the lender to view all activities at a glance with critical data extracted for easy comparison. This minimizes loan processing time, improves portfolio value and reduces lender exposure. The LoanComplete product set complements an institution's existing loan origination, loan servicing, and regulatory compliance solutions.

Fiserv offers solutions for complete life of loan management, from origination through servicing, and is a leading provider of lending solutions in the United States. Fiserv mortgage technology processes millions of loans for the nation's largest residential lenders and servicers.
